

DRIVE-THRU UPGRADE

Albert Smith Philippines (A.S. Signs, Inc.) was fortunate to further expand the services offered to McDonald's Philippines in the past months via the supply and installation of a range of products for the upgrade of the McDonald's Drive Thru.

The range of product provided consisted of:

- * Pre-sell Boards
- * Double Rotating Menu Boards
- * Clearance Bars
- * Pylon Banner Frames
- * Billboards
- * Window Reminder Boards

All were built to international standards with the pre sell and menu boards utilizing Albert Smith's specialist aluminium extrusions.

A total of 32 sites have been upgraded so far with further sites earmarked for later this year and through out 2003.

We are excited by the development of this program and would like to thank McDonald's for their ongoing support of Albert Smith Philippines.

Peter Treloar, Albert Smith Philippines
